blueprint North America

We offer training, coaching, consultancy and keynote addresses that help **build confidence** in individuals, teams and organizations in three areas:

1. PERSONAL CONFIDENCE

2. SALES CONFIDENCE

3. STRATEGIC CONFIDENCE

4. LEADERSHIP CONFIDENCE

Anchored by our values – Purpose, Performance and Positivity – we believe that **success can be planned**, that winning is by design, and that you are the architect of your outcomes. Using blueprint processes, tools and concepts helps commercial professionals to learn to be disciplined, plan to be prepared, and **choose to be confident**.

What **inspired** you to dedicate your life to helping people and organizations unleash their potential?

I've met and interacted with so many great people and found that we limit our potential everyday, sometimes on purpose and many times unknown to ones self (until years later...). As a result, we all need a catalyst to help find that spark and that's where your network of supporters are supposed to come in and help. With blueprint, we get to be the catalyst, challenging the status quo in a meaningful way. Coaching, consulting, facilitating or cheerleading, we get to put practical processes and techniques into action to stretch your mindset, build some professional muscle and unleash your potential.

Proudest business accomplishment?

I guess personal and business have begun to mesh together into one life for me as my daughter wrote a piece on the power of a **Growth Mindset** and it actually was selected to be published for her school library. I guess I take my work home and it's not a bad thing.

What advice would you give new leaders?

Find ways to turn 1 opportunity into 10 new opportunities... even if you only achieve something less than 10, that's far better than where you started from...
